

## 25mm Anti-metal NTAG213 NFC RFID

### Description

A small and thin NFC tag at 25mm, this is suitable for use in Logistics, Package tracking, Goods management They have a Etched aluminum antenna inside to provide a good reading distance, for such a small NFC tag.

### Specification

Chip Type	NXP NTAG213
Shape	Round
Size	25mm
Antenna Size	21mm
Total Memory	144
Formatted Memory	137
Operating Frequency	13.56MHz

### Features

Contactless transmission of data and supply energy

Operating frequency of 13.56 MHz

Data transfer of 106 kbit/s

Data integrity of 16-bit CRC, parity, bit coding, bit counting

Operating distance up to 100 mm (depending on various parameters as e.g. field strength and antenna geometry)

7-byte serial number (cascade level 2 according to ISO/IEC 14443-3)

UID ASCII mirror for automatic serialization of NDEF messages

Automatic NFC counter triggered at read command

NFC counter ASCII mirror for automatic adding the NFC counter value to the NDEF message ECC based originality signature

Fast read command

True anti-collision

50 pF input capacitance
